

WESTClip or SmartCILP

REQUEST FORM

WESTClip

Generated every two weeks during the academic year, contains all new articles added to the twenty law reviews on Westlaw during the prior two-week period. Faculty may choose to receive the list either electronically or in paper via interoffice mail. If multiple articles from a single issue are of interest, we will be happy to purchase a copy of the issue from your Faculty Research Plan account. The library will continue to provide customized searches by either adding journals available in WESTLAW to your list or by creating subject searches. If you would like to customized search, please contact Liz Evans.

CILP/SmartCILP

Produced by University of Washington Law Libraray; covers over five hundred law reviews, many with specialized concentrations. You may download the entire issue of **CILP** from the Law Library's Faculty Services homepage, receive a paper copy of the entire publication from the law library, or create a personal profile for your research by subject and/or journal titles.
