

Compact Fluorescent Light Bulbs (CFLs) Make A Difference At NYU!

Here's How!

We are providing new Mercer residents a non-dimmable 15 W CFL to use in their desk or reading lamp and a 23 W CFL to use in their floor lamps in place of incandescent bulbs.

Wattage Comparison	
<u>CFL = Incandescent</u>	
15 W =	60 W
23 W =	100 W

The Impact:

If every NYU resident uses the CFL's provided we will:

- ➔ Save Energy – 500,000 kWh/ year. That's equivalent to powering Mercer Residence for 9 months.
- ➔ Reduce Greenhouse Gas Emissions – by 400,000 lbs of CO₂/ year!
- ➔ Save Resources – CFLs bulbs last 10x longer than incandescent bulbs!
- ➔ Save Money – \$95/bulb in estimated energy cost (may vary depending on electricity price)!

Burned Out CFLs Should Be Recycled

Dispose of it in the CFL collection container located the Mercer Lobby

Don't be left in the dark, install your CFL today!
