A) PLANNING FOR MARKET UNCERTAINTY WHEN INVESTING IN SOCIAL ENTERPRISES OR MANAGING SOCIAL ENTERPRISES:

Winds of Change: Political Uncertainty and New Dynamics*

LOCATION: Vanderbilt Hall, Room 214

Recent political winds have created unique dynamics across the world. In only the past year, Brexit, the US presidential election, and a potential tide of national-based populism have changed dynamics of cross-border investing and international trade. While these trends raise substantial questions in terms of the global marketplace, potentially more jarring is the ongoing uncertainty related to policy decisions and the eventual impact of these changes. This panel will explore the impact of these changing dynamics on social enterprise and impact investing. How have these markets and industries reacted to this new environment, particularly around potential trade barriers, regulatory rollback, and a potential scaling of privatization?

Panels Round 4

A) PLANNING FOR MARKET UNCERTAINTY WHEN INVESTING IN SOCIAL ENTERPRISES OR MANAGING SOCIAL ENTERPRISES:

In the Trenches: Cross-Border Issues*

LOCATION: Vanderbilt Hall, Room 214

Transactions across borders involve complex issues with conflicting perspectives on management and operations, differences in accounting and financial reporting, governance and control provisions, tax treaties and tax planning, bilateral investment treaties, currency exchange and repatriation risks, securities law issues on establishing investment vehicles as impact investing reaches a broader range of investors, diligence challenges due to remoteness, choice and conflict of laws, extraterritorial laws, language issues, and dispute resolution and enforcement. This panel will discuss the issues that must be considered in planning and negotiating a cross-border impact investment, approaching documentation, and blending conflicting practices in a way that provides risk protection and results in a viable transaction.

C) AGGREGATING CAPITAL FOR IMPACT INVESTING:

Embedding Impact Metrics into Impact Investment Intermediaries and Social Impact Bond Structures*

LOCATION: Vanderbilt Hall, Room 220

As the impact investment community matures and begins to find meaningful ways to demonstrate real impact to all stakeholders, it increasingly utilizes specific impact metrics. And, going beyond a tool to measure outcomes, these impact metrics are being integrated more and more into the fabric of aggregated capital structures: as elements of portfolio investment criteria, triggers for additional investment funding, and “impact hurdles” tied to investment manager compensation. This panel will provide an in-depth discussion of that integration, including success (or not!) stories based on panelist experience.

PANELISTS:

Carolyn Kim Allwin, Co-Founder and Managing Director, Elysian Advisers
