Monetary Settlements Imposed in Public Company and Subsidiary Actions
FY 2017–FY 2026
(Dollars in millions)

Note: Relief defendants are not considered. For actions where monetary settlements are not imposed on all defendants in the same fiscal year, actions are classified by the first fiscal year in which a monetary settlement was imposed. There are seven actions for which not all defendants have settled. Total monetary settlements for those actions only include monetary settlements through September 30, 2026. Monetary settlements include Sarbanes-Oxley 304 clawbacks, which were noted for fewer than 25 defendants in FY 2017–FY 2026.
