

**DURING THE
HEIGHT OF COVID
IN DELHI,
WOMEN'S
ACCESS TO
HEALTH CARE
REALLY
SUFFERED. LOW
INCOME
HOUSEHOLDS
AND
MARGINALIZED
COMMUNITIES
WERE MOST
IMPACTED.**

**IT WAS
IMPORTANT TO
MONITOR WHAT
THE WOMEN
WERE
EXPERIENCING,
PARTICIPATORY
METHODS
ALLOWED US TO
COLLECT DATA
AND ALSO
DETERMINE THE
BEST COURSE OF
ACTION**

**LEARNING ABOUT
THE RIGHTS
VIOLATIONS THE
WOMEN
EXPERIENCED WE
LEARNED THAT
THEY DID NOT WANT
TO BE
ADVERSARIAL. HOW
CAN WE TAKE LEGAL
ACTION WITHOUT
REINFORCING THE
ADVERSARIAL
APPROACH
INGRAINED IN THEM?**

**AMAZINGLY
COLLABORATIVE
APPROACH ALSO
ALLOWED US TO
IDENTIFY
UNLIKELY ALLIES.
GOVERNMENT
OFFICIALS HAVE
REACHED OUT TO
HELP THINK OF
MORE WAYS TO
DISSEMINATE THE
INFORMATION.**

**THE WOMEN A
PRIORITIZED
PROTECTING
THEIR IDENTITIES
AND THEIR
COMMUNITIES.
THE
PARTICIPATORY
METHODS REALLY
HELPED LIFT
THESE CONCERNS
WOMEN HAD
ABOUT
APPROACHING
THE COURT.**

**ANY ANALYSIS
ANY DATA THAT
WAS COLLECTED
WAS ALWAYS
RETURNED TO THE
WOMEN, WHERE
THE
INFORMATION
WAS ROOTED. WE
DIDN'T JUST
PASS ON THE
INFORMATION,
BUT WE
REFLECTED WITH
THEM.**

**AS WOMEN
SHARED THEIR
EXPERIENCES, IT
BECAME VISIBLE
THAT OTHER
WOMEN WHO
WERE FRONT
LINE WORKERS
MAY BE
WRONGLY
BLAMED IF WE
DO NOT HOLD
THE
INSTITUTIONS
ACCOUNTABLE.**
