<p>Note: Within the one-mile radius zones of charter schools, differing configurations of all Houston ISD affiliated schools (HISD), traditional public schools (TPS), and magnet schools were found. Some charters did not have magnet or TPS within their one-mile radius leading to differing sample sizes in comparing HISD, TPS, and magnet school on segregation by English Language Learners, Economically Disadvantaged, and Special Education populations.</p>

Levels of Segregation: Comparing Open Enrollment Charter Schools to all Houston ISD affiliated schools, Traditional Public Schools (TPS), and Magnet Schools within One-Mile Radius (AEIS 2011-2012)

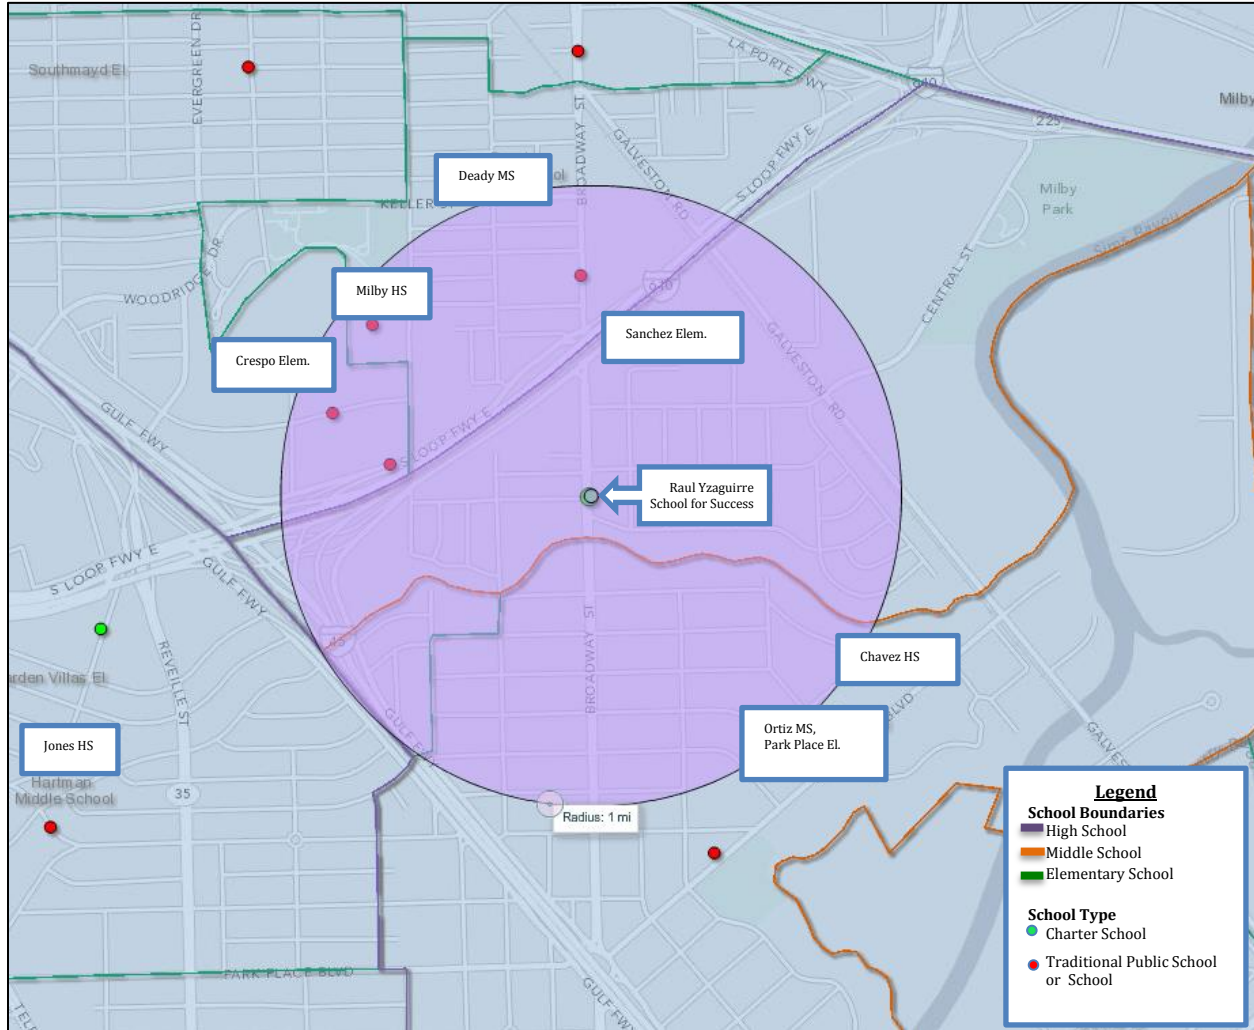

Note: Within the one-mile radius zones of charter schools, differing configurations of all Houston ISD affiliated schools (HISD), traditional public schools (TPS), and magnet schools were found. Some charters did not have magnet or TPS within their one-mile radius leading to differing sample sizes in comparing HISD, TPS, and magnet school on segregation by English Language Learners, Economically Disadvantaged, and Special Education populations. Levels of segregation are as follows: not segregative ($\pm 10\%$ difference, $\pm 6\%$ difference for SPED), segregative (-10% to -19% difference, -6% to -9% difference for SPED), extreme segregative (-20% difference or greater, -10% or greater for SPED), reverse segregative (10% to 19% difference, 6% to 9% difference for SPED), extreme reverse segregative (20% difference or greater, 10% or greater for SPED).
